

CSCI-6401-01_OLAPPED_00753983

Name :- Rajdeep Bhattacharya

Course :- Data Mining

Instructor :- Prof. Shivanjali Khare

Course ID :- CSCI-6401-01

Session :- Fall 2023

Assignment :- Phase 1 (Selecting your group)

Team Name :- OLAPPED

Team Member Names :-

(1) Sean Vargas – svarg1@unh.newhaven.edu (Team head)

(2) Prashant Rana – prana4@unh.newhaven.edu

A. About me :-

I am Rajdeep Bhattacharya, I am from India, pursuing M.S. in Computer Science from the University of New Haven and presently in my fifth and final semester. I am highly interested in data and its applications, so Data Mining is an important course for me.

I have some idea about data and databases, but I am still exploring and trying to figure out more on the subject.

B. About the teammates and selection of the team head :-

Firstly, I mostly didn't know anybody in my Data Mining Class. Sean and Prasant were sitting in my back and during the ice breaker activity as asked by Prof. Shivanjali Khare we started talking, kind of liked their views on the ice breaker topic, also they are attentive in class.

Sean is the youngest member and an Undergrad, but he seems serious about his studies, so we decided for him to be the team head.
